thelittlegreenscreen

popup documentary cinema in the heart of forest hill

WHAT IF

what if we showed films about stuff that was happening. what if we showed films about the good stuff people were doing. what if we got good people to come and talk about the stuff. what if we put together some good stuff we could do. what if we told some people and they told some people. what if we made the world a little better, one popup documentary cinema event at a time.
